STUDENT WBL TRACKING

Your students can develop WBL plans, e-sign, record their WBL hours and skills, and summarize their experience. They also gain career-ready practices and build their digital portfolio. They can also develop and grow a resume and explore careers.

MONITOR WBL OUTCOMES

Teachers or WBL leaders can quickly view students WBL agreement/plan and e-signatures, monitor hours and keep students on track!

SUPERVISOR EVALUATIONS

You can quickly add WBL supervisors and connect them with your WBL students for assessments. You also have our email message system to communicate and build connections.

DEVELOP WBL DATA REPORTS

As your students track their experiences (hours, skills, paychecks) and your employers complete their assessments, the data is organized into quick reports to show your results (% completers, ave. hours, etc..)

Some of the following areas are recommended help sections to get you and your students started!

Key Areas in Resources:

Teacher Help

Setting Up
Supervisor
